HANDS-ON 9 [Advanced]
Digital Nurture 5.0 | Python Backend Frameworks | Hands-On Exercise Book

cd
"c:\Users\jasma\Downloads\Cognizant_DeepSkilling\Python_Backend_Frameworks\hands_on_9\fastapi_coursemanager"
uvicorn main:app --reload

Head over to <http://127.0.0.1:8000/docs>. You will now see an "Authorize" padlock button at the top right of the Swagger UI!

1. Use the `/register/` endpoint to create a user.
2. Click "Authorize" and log in with your credentials to acquire your token.
3. Once authorized, test the protected `POST /courses/` endpoint.

Are there any other hands-on modules in your workbook that you'd like to dive into next?
